

FY 2026

Buy America / Build America, Buy America Act (BABAA) Compliance Certification

Molding Solutions Inc (MSI) dba Illinois Valley Technologies (IVT) has been the exclusive manufacturing partner of AquaTechnic NW, Inc since 1956. AquaTechnic NW, Inc. is the only company authorized to sell Nylon Dielectric Pipe Reducer Bushings worldwide.

AQ and IVT hereby certifies that the component(s) listed below comply with the domestic sourcing and manufacturing requirements of the Build America, Buy America Act (BABAA), enacted as part of the Infrastructure Investment and Jobs Act (IIJA), Pub. L. No. 117-58, §§ 70901-52, and/or the Federal Highway Administration (FHWA) Buy America requirements (23 U.S.C. § 313), as applicable.

Product Description: Nylon Dielectric Pipe Reducer Bushings

Material Used: BASF Ultramid 8202HS (Polyamide 6)

AQ and IVT specifically certify the following data:

1. **Domestic Manufacturing:** The final manufacturing, injection molding, and assembly processes required to produce the finished component(s) take place entirely at the facility located in Washington, IL, USA.
2. **Cost of Components (55% Rule):** The component qualifies as a **Manufactured Product** under BABAA guidelines. The cost of the components mined, produced, or manufactured in the United States exceeds **55 percent** of the total cost of all components of the manufactured product, supported by Certificates of Origin maintained in the project records.

Supporting documentation, including material certifications and country-of-origin tracking for the raw material resin batches, is maintained on file by AQ and IVT. These documents can be made available for review upon official request to AquaTechnic NW, Inc.

Should any further information or verification be needed, please contact AquaTechnic NW, Inc., directly at {360} 489-1900 or submit inquiries to sales@aquatechnicnw.com.
